

New Background Check Partnership

As you know the NACCC provides member churches with easy access to background checks for church clergy, staff and volunteers. We have now partnered with Background Checkology. Background Checkology delivers trustworthy, inexpensive, and timely background checks on clergy candidates, newly hired church staff, and volunteers in any number of church ministries and programs (such as youth workers, Christian education workers, church day care workers, etc.) when requested. To make such a request, download, print and complete the [Background Check Form](#) and email it to [Laura Wright](#).

An invoice for charges incurred will be sent to the church upon completion of the background check(s).

Once the Background Check Form is received by the NACCC, the applicant will receive an email background check invitation that will allow them to complete their background check electronically. The applicant will electronically sign a release form giving permission to the NACCC and the member church to perform a background check and they will have access to a copy of their report when it completes. The NACCC will email a copy of the completed background check report to the member church ordering user.
